

Rocket Into Scouting!

3... 2... 1... LAUNCH!

Start your school year with a *BLAST!* Every **NEW Scout** who registers by October 31st with a pack that's held 3 recruiting events will receive a **FREE** model rocket to launch!

This is a great first event for all of our new Scouts to attend! This will kickstart both their Scouting career and a lifelong love of STEM. Launch Day events will be at three different locations around our council area. Find the one that's most convenient for your pack or family:

- Oct. 13th at New England Base Camp in Milton
- Oct. 20th at Lone Tree Scout Reservation
- Nov. 10th at Wakefield Location

Each NEW Scout will receive a free launch engine. Launch Day Events will offer Rocket Building Stations (although we still recommend you build your rockets beforehand). Other fun Scouting activities will be provided and vary by location. All of our Launch Sites will provide a great time launching Rockets with your Scouts and family!

The entire family and current Scouts are welcome, and additional rockets kits can be purchased and built at the event.
